Graduate Teaching and Learning Program At a Glance | uab.ca/gtl

Level 1: Foundations	Level 2: Practicum	Level 3: Pedagogy	Level 4: Scholarship

What you need to know to be a great TA

Learn about the university policies and professional ethics you will need as a teaching assistant. Equip yourself with student- centered approaches to teaching and increase your effectiveness in the classroom. Build your knowledge of teaching and learning strategies in the online and remote learning context.

Become a better teacher

Translate your knowledge of teaching and learning into practical application. Establish a practice of reflective teaching, personal goals setting and peer engagement. Create a statement of teaching philosophy that serves as the basis for skill building in lesson planning, development and delivery. Initiate an e-dossier.

Become a principal instructor

Grow and integrate your knowledge of teaching scholarship through practical application. Develop skills and competencies as a principal instructor through the creation of an integrated course design portfolio. Deepen your capacity to be a critically reflective educator and critical colleague. Expand your e-dossier.

Engage with teaching research

Pursue scholarly teaching and learning questions. Work with a faculty member to design and develop a SoTL research or course development project. Present your research to the teaching community. Improve your teaching effectiveness, support student learning, and demonstrate your active interest in teaching on job applications, and later for tenure and promotion.
